1.
WHEN TAKING NOTES, ONLY WRITE DOWN
the most important items. Never
try to write EVERYTHING... why?

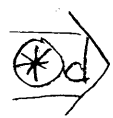

I will help you by identifying
the "most important items" as follows:

- ⊛ d definition, fact, or VOCABULARY term
 - ⊛ EX EXAMPLE
 - ⊛ f FORMULA
 - ⊛ M MEMORY AID
- ↓
Flash Cards
-

You should divide your notes into 4
sections and keep "like items" together.

An excellent way to do this is to
WRITE THEM DOWN AS WE DO THEM IN CLASS
and then, each night, REWRITE THEM OR
TYPE THEM INTO AN ORGANIZED SET OF NOTES.

- Supplies needed.

Al-Khwarizmi - PERSIAN MATHEMATICIAN

- lived ~ 800 AD
- MOST OF LIFE AS SCHOLAR IN THE "House of Wisdom" in Baghdad
↓
NOW CAPITAL OF IRAQ
- WROTE THE "first" book of Algebra
- WORD ALGEBRA COMES FROM "Al jabr" in title of book.

- The title roughly translated is "THE SCIENCE OF REDUCTION AND REUNION"
