

Ch. 14 Mind Over Matter

Driving back home holding hands. Edward admits he is old, very old. Born in 1901. Saved from flu by being turned into a vampire. His "biter", Carlisle, only bites those that are about to die - so he is "humane" vampire. More than 90 years old.

Much talk. Finally at Bella's house. Dad comes home, Edward sneaks into Bella's room. Talk. More talk. Turns out each vampire has an exaggerated version of whatever their dominant human quality was. Bella fell asleep in Edward's arms.
