

Ch. 2 - Open Book

Second day at FHS. Called on in MATH class & didn't know answer! ☹️ No fun in PE either - hit another student with volleyball. But... Edward was absent! Bella finished day 2 - went grocery shopping & cooked dinner for her & her Dad. "Unwillingly" did her MATH homework. First week went by, Edward still absent! First snowfall. Finally, Edward back at school. Bella and Edward are biology lab partners. Bella gets engulfed by Edward's looks and babbles - she rushes home in her red truck embarrassed while Edward watches appearing to be amused. Bella noted a strange change in Edward's appearance (more energized), eyes (more gold, not pure black), and behavior (only flashes of apparent anger or aversion).
